

Nova Southeastern University PT Department presents 2011 Continuing Education Courses

The Physical Therapy Faculty of Nova Southeastern University, is proud to once again sponsor a series of continuing education classes between September and November 2011. All courses are offered on the Ft. Lauderdale Campus in the Health Professions Complex, 3200 S. University Dr., Ft. Lauderdale, FL 33328.

Directions: The Ft. Lauderdale Campus (Health Professions Complex) is at the “Nova Southeastern University” traffic light, one light south of SW 30th, and 2 lights north of Griffin.

Please share with your colleagues. Hope to see you in September and beyond...

Thank you!

Faculty	Topic	CEHs/Date/Time	Objectives
1) Dawn Brown-Cross PT, EdD, CLT Debra F. Stern PT, MSM, DBA CLOSED OUT	Post Mastectomy Lymphedema Management: Clinical Pearls of Wisdom	CEH 3.5 Sep 7, 2011 1 to 4:30 PM	Synthesize the anatomy of the lymph system and relevance to clinical practice. Identify when to recommend decongestive UE lymph drainage vs compression for post-mastectomy lymphedema management.
2) Morey Kolber PT, PhD, OCS, MDT Peter Sprague PT, DPT, OCS CLOSED OUT	Posterior Shoulder Tightness: Implications for the Physical Therapist	CEH 3.0 Sep 9, 2011 3 to 6 PM	Demonstrate performance of measurements designed to quantify posterior shoulder tightness Recall the structures involved in the etiology of posterior shoulder tightness Recognize the potential error associated with posterior shoulder tightness measurements
3) Bini Litwin PT, DPT, PhD	Knowing When to Stay or Go: Measuring the Cardiovascular Patient Response to Activity	CEH 3.5 September 16, 2011 1 to 4:30 PM	Use the clinical decision making model to identify patients with limited activity tolerance who may benefit from PT To assess and develop a physical therapy plan of care giving consideration to the cardiopulmonary demands of exertion for clients To discriminate between normal & abnormal responses to activity
4) Leah Nof PT, MS, PhD,	A Neuro Diagnosis Doesn't Preclude Joint Mobilization: Trunk and Extremities	CEH 3.0 September 20, 2011, 1 to 4 PM	Recognize effect of tone on joint mobility Perform joint mobilization of trunk and selected extremity joints
5) Jennifer Canbek PT, PhD, NCS	What Your Interventions have done: Determining Functional Outcome Measurements	CEH 3.0 Sep 27 1:00 to 4:00 PM	Selection of appropriate functional measures Determining of effectiveness of intervention by using functional outcome measures
6) Carlos Ladeira PT, MSc, EdD, MTC, FAAOMPT	Oh Does My Head Hurt: PT Management of Headaches	CEH 7.0 October 1, 2011. 9 AM to 5 PM	Compare the clinical presentation of the most common headache syndromes presenting in the PT Clinic Discuss subjective and objective evaluation of patients with headache in the PT clinic Discuss the management of patients with Headaches in the PT clinic
7) Cheryl Hill	From Classroom to Clinic –	CEH 7.0	Understand the concepts underlying evidence

Faculty	Topic	CEHs/Date/Time	Objectives
PT, DPT, PhD	Evidence Based Practice Made Easy	Oct 15, 2011 9 AM to 5 PM	based practice Ask and answer a PICO question Develop a plan for evidenced base practice in all practice settings.
8) Rebecca Rosenthal PT, DPT, JD	Clinical Education and the Law: Florida versus Medicare	CEH 3.0 Oct 20, 2011 3 PM to 6 PM	Synthesize the differences between Medicare regulation and Florida law Integrate Florida law regarding students in the clinic
9) Debra F. Stern PT, DPT, MSM, DBA	So You Want to Be a CI: An Easy Approach to Organizing the Day	CEH 3.5 November 1, 2011 1 to 4:30 PM	Integrate a practical approach to organizing a typical clinical day Maintaining productivity and managing a students
10) Carlos Ladeira PT, MSc, EdD, FAAOMPT	The Big Picture: Basic Diagnostic Imaging of the Spine	CEH 4.0 November 5, 2011 1 to 5 PM	Review radiographic anatomy of the lumbar and cervical spine Discuss radiographic findings in common disorders of the cervical and lumbar spine Discuss indications of plain radiographs and advanced imaging tests (MRI, CT, and Bone Scan) for the cervical and lumbar spine
11) Melissa Tovin PT, PhD	Pediatrics: Sensory Integration and the Physical Therapist	CEH 3.0 Nov 18, 2011 1 to 4 PM	Synthesize the indications for sensory integration Integrate basic sensory integrations approaches

Registration due 7 days prior to course date
