

Melissa Tovin, PT, MA, PhD, PCS, CEEAA

**Director of Residency Programs**

**Professor**, Department of Physical Therapy - Ft. Lauderdale

(954) 262-1697; mtovin@nova.edu

Education

Dr. Tovin received her degree in Physical Therapy from New York University, her Master's Degree in Applied Physiology from Columbia University, and her PhD in Higher Education from Georgia State University.

Certifications

Dr. Tovin is a *Board-Certified Clinical Specialist in Pediatric Physical Therapy*. She is also a *Certified Expert in Exercise for Aging Adults* through the American Physical Therapy Association.

Teaching

Courses: PHT 6721: The Healthcare Educator; PHT 6700 - Introduction to Research Methods and Data Analysis; PHT 6817: Pediatrics I; PHT 6819: Pediatrics II; PHT 6904: Research Capstone (Ind. Study); PHT 7800: Dissertation; HPH 7410: Qualitative Research Design

Dr. Tovin is lead faculty for the pediatric course module, which covers two semesters in the professional-DPT Program. She also teaches qualitative research in the professional-DPT and PhD programs. Dr. Tovin provides dissertation advisement for PhD students, capstone research advisement for DPT students, scholarship projects for residents, and supervises DPT students during community-based service activities.

Scholarly Activities and Interests

Dr. Tovin's research and clinical interests focus on autism spectrum disorders, pediatric-to-adult transitions, exercise and wellness, and education. She has 22 publications, including journal articles and textbook chapters. She has also presented her research and areas of expertise at state, national and international conferences. Dr. Tovin has recently completed her work on two pediatric textbook chapters, and one textbook chapter on the topic of qualitative research methodology. Dr. Tovin is actively engaged in research and community outreach programs serving adolescents and young adults on the autism spectrum. Current research projects include promoting optimal movement in pediatrics, use of remote technology to improve physical activity and health indicators in individuals with autism spectrum disorder, adult transitions health services, and the effectiveness of inter-professional education models in PT curricula.

Areas of Practice

Dr. Tovin has 30+ years of experience as a physical therapist in a variety of settings including adult neurologic and orthopedic rehabilitation, out-patient orthopedics, acute care, geriatrics, home care, and pediatrics. Over the past 20 years, she'ss focused primarily on pediatric PT in the school, out-patient clinic, home, and community settings.

Professional Activity Summary

Dr. Tovin has been an APTA member since 1986, and is currently a member of both the Academy of Pediatric Physical Therapy (APPT) and the Academy of Physical Therapy Research (APTR). She currently serves as the Chair of the Qualitative Research Special Interest Group of the APTR.

Dr. Tovin is an Editorial Board Member for *Physical Therapy & Rehabilitation (PTJ)*, the official scientific journal of the American Physical Therapy Association. She also serves as a manuscript reviewer for the *Strength and Conditioning Journal*, *Physiotherapy Theory and Practice*, the *Journal of Physical Therapy Education*, and the *Journal of Autism and Developmental Disorders*.
